**PURPOSE ORIENTED TRAINING
THROUGH DISTANCE LEARNING ON
FLOOD FORECASTING AND
MIKE MODELLING**

05-16, October-2020

Being Organized by

**NATIONAL WATER ACADEMY &
REGIONAL TRAINING CENTRE OF
WMO, PUNE**

INTRODUCTION

For centuries, several parts of the country have been witnessing flooding because of intense rainfall activity particularly in monsoon season. Flood forecasting is an effective non-structural tool which seeks to issue advance warning of the magnitude of flood and its time of occurrence; and thus let concerned authorities to take necessary measures to safeguard lives & properties and also to regulate release through a dam in a manner not harmful to structure itself and lives and properties both in upland and downstream areas. CWC, under Ministry of Jal Shakti, Govt of India, issues River water Level Forecast to 197 Stations and Inflow forecast to 128 reservoirs spread across India in order to ensure the people against possible loss of properties and lives.

Water Resources professionals have been continually endeavouring to forecast future events as accurate and early as possible by adopting newer techniques to speed up the formulation of forecast with enhanced accuracy. This program aims to introduce newer techniques emerged in recent past besides revisiting the conventional techniques.

PROGRAM OBJECTIVE

The program will comprise of online classroom sessions, case studies and discussions and will cover the following topics:

- Overview of Flood Management in India and Introduction to Flood Forecasting & Warning
- Flood Forecasting by Statistical methods
- Overview of Flood Modelling
- Basics of RS and GIS for Flood Modelling
- Hydro-Meteorological Data inputs for Flood Modelling
- Components of MIKE Model
- Setting Up of Rain Fall – Run-Off Model
- Setting Up of Hydraulic Model
- Automation in Modelling
- Preparation of Flood Forecast (FF) Bulletin & FF Appraisal Report and CWC's Flood Forecast Dissemination website
- Assessments/Assignments through MCQ
- Hands on Training sessions

PROGRAM FORMAT

Program contains online lecture modules and Discussions using "Google Classroom". For facilitating to join the training, the participants has to register themselves in the "Google Classroom" using their "Gmail account". The Registered participants will be given the Class Code by this Institute, on entering which they will access to the training modules.

Participants will be required to complete an online Assessment through Multiple Choice Questions (MCQ) after completion of each module.

As this is an online course, the Officers can participate in the program without taking any leave. A WhatsApp group would be created for resolving technical issues in respect of training.

FACULTY

The faculty has been drawn from the core faculty of NWA and FMO under RM wing of CWC, New Delhi, and experts of the relevant topics.

The faculty will be available for online and offline interaction during the program duration.

TARGET GROUP

The DL program is intended to benefit the Officers and Staff of CWC involved in the Flood Management & Flood Forecasting activities.

Computer skills is a pre-requisite. Participants must have access to a good internet connection at home or at office.

PROGRAM FEE

There is no program fee.

PROGRAM DURATION

05-16 October 2020 (10 Days)

PARTICIPATION

The willing CWC officers & Staff with the consent of their controlling officers may register themselves through the Google form link given below latest by 30th September 2020.

Confirmation on acceptance of nominations will be uploaded on NWA website (<https://nwa.mah.nic.in>) under the "Upcoming Events" link by 2nd October 2020 and the individuals also will be informed by mail. The nominated officials have to attend this program from their existing place of duty and they are not supposed to come to NWA for the same.
